

Participate in the Shape Up! Kids Study to measure your body composition!

Purpose: Develop ways to measure health and body composition from 2D and 3D images.

You may qualify if you:

- Are between 5 and 17 years old
- Are able to lay flat on your back for up to 10 minutes
- Are able to stand without aid for 2 minutes
- Don't have any metal in or on your body that can't be removed

Procedures: Questionnaire, DXA, MRI, pictures, blood draw, body and strength measurements

Time commitment: One visit that will last about 3 hours. *(Some participants will have a second visit)*

Upon completion of the study visit you will receive:

- A gift card
- Information about your body composition

Participate or learn more about this study by contacting the study team at 808-440-5234 or bodycompstudies@cc.hawaii.edu and reference the "Shape Up Kids Study".
