

Training Requirements for JABSOM Kaka'ako Researchers

- EHSO safety trainings are intended to be general awareness trainings.
- Principal Investigators or designee (e.g. Lab Supervisor or Manager) must provide all new lab personnel/students with task and site specific training.
- New lab personnel/students must complete the Lab Personnel Safety Checklist with their supervisor/PI prior to working in the lab.
- Lab personnel/students are responsible for keeping all training records and completing trainings when due. The Safety Training Log may be used to keep track of training dates.
- Training forms can be found at: <http://www.jabsom.hawaii.edu/ehso/safety-training/>

UH General Lab Safety

- Initial formal classroom training provided by EHSO required once.
- Required for anyone working in a UH lab.
- A certificate for completion of the initial training may be provided by EHSO.
- **Annual refresher must be conducted by the PI or designee using the Lab Personnel/Student Safety Checklist as a guideline and means of documentation.**

Initial Hazardous Waste Generator (HWG) Training and Annual Refresher HWG Training (specific to JABSOM Kaka'ako only)

- Initial and annual refresher training is available online at Lulima. Click on link to join training: <https://lulima.hawaii.edu/autoenroll/?hazwastejabsom> (log in using your UH username and password).
- For all those who will submit chemical waste for disposal.
- Upon completion, a certificate will be emailed by Kaka'ako EHSO.

General Biological Safety

- See link for more information: <https://www.hawaii.edu/researchcompliance/biosafety-education>
- Training required annually.
- Inform Kaka'ako EHSO kakaako-ehso@lists.hawaii.edu when your training is completed so your training record can be updated in our database.

Bloodborne Pathogen Standards

- See link for more information: <https://www.hawaii.edu/researchcompliance/biosafety-education>
- Training required annually.
- Email kakaako-ehso@lists.hawaii.edu when completed so your safety trainings records are updated.

Shipping and Receiving Biological Commodities

- Required for anyone who ships, receives, transports biological commodities.
- See link for more information: <https://www.hawaii.edu/researchcompliance/biosafety-education>
- Email kakaako-ehso@lists.hawaii.edu when completed so your safety trainings records are updated.

Initial Radiation Safety Training and Annual Refresher Radiation Safety Training

- Initial classroom training is required once; annual online refresher required thereafter.
- For anyone who works with radioactive materials or in a lab authorized for radioactive material work.
- Generally offered only at Manoa EHSO training classroom, please refer to the training schedule at <http://www.hawaii.edu/ehso/radiation-training/>
- Email kakaako-ehso@lists.hawaii.edu when completed so your safety trainings records are updated.

- A link to the annual refresher can be found at the website:
<http://www.hawaii.edu/ehso/radiation-training/>

Initial Fire Safety Training

- Required for researchers requesting a JABSOM Kaka'ako Open Flame Permit.
- A certificate is NOT provided.

Respirator Safety Training

- Required annually for those who are *required* to use a respirator (disposable and non-disposable).
- Required annually for those who *voluntarily choose to use any non-disposable respirator*.*
- Medical clearance (required use and voluntary use of non-disposable respirators only).
- Fit testing to the specific respirator that will be used (required use and voluntary use of non-disposable respirators only).
- Fit testing is required at least annually and whenever the respirator type changes, when the risk to the employee changes, and when the employee's physical changes could affect the seal/fit of the respirator.
- A certificate is provided by EHSO.
- *Appendix D: OSHA information for employees using disposable respirators when not required.
